

We celebrate regional traditions.

Our school is located in Żukowo, in the heart of the land called Kashubia. We are surrounded by forests and lakes hidden in them on one side, and on the other - we are nearby the Tri-City, a large urban center and the Baltic Sea.

Both small children and teenagers (5-13) learn in our school. So we have experience in entering the world through fun and physical activity, as well as in stimulating people seeking adulthood to search for their own answers.

im. Obrońców Wybrzeża
w Żukowie

We are a primary school with long tradition dating back to 1960s. We are strongly associated with the region and local traditions, and at the same time we actively cooperate with the broad environment. We have experience related to participation in the Comenius and Erasmus programs and a cooperation with another primary school in Germany. We are active users of the eTwinning platform. We are open to new experiences and willing to cooperate!
